INNOVATION IN CHURCH SERVICES

YOUNG PEOPLE OF FIRST CHRISTIAN IN CHARGE EVENINGS.

OVER 100 TO TAKE PART

Big Chorus to be Maintained—Plan Creating Much Interest Among All Church Attenders.

Plans for the young people of the First Christian church to have full charge of the evening services through the months of May and June were made at a meeting of about forty young people held at the church last night. They will arrange their own programs, do the ushering, singing, etc. Each night will be designated as some special night and the program will be consistent with the idea.

Rev. R. E. Snodgrass presented the plan and after a unanimous acceptance by the young people the following committee was selected: Chilton Robinson, chairman; Ruth Bookman, program; Edwin McPherron and Mildred Shinabarger, ushers; Mabel Cook, advertising; Mary Margaret Richey, chorus. Other committees will be named as needed. These chairman will have a meeting tonight to select the other members of the committees.

The first service will be held May 2, and will be known as "Inauguration" night. The program will consist largely of music, led by Miss Margaret James, in which the regular church choir and a junior choir will assist the young people. The general plan of the series will be explained at this time and the whole program will be outlined.

The meeting held last night was in the form of a luncheon after which a business session was held for the purpose of forming the above plans. The meeting was called by the young people of the church who are members of the Older Boys and Girls Council. It was an informal affair, the program consisting of popular songs, and solos by Mary Holt and Sterril Bishop.

It is expected that more than a hundred young people of the church will have part in the services, maintaining a large chorus and backing the plan in every way. The plan will no doubt create much interest not only among the young people but among all church-goers.

STATE BOARD OF HEALTH OFFICER TALKS TO STUDENTS

Dr. W. E. Pentz, lecturer for the state board of health who is on a speaking tour in the interest of the United States public health service, spoke to the students of the High school this afternoon. The subject of Dr. Pentz talk was "Keeping Fit." He will give addresses at about sixty high schools through northwest Missouri.

ADVANCE TICKET SALE FOR GATTY SELLARS CONCERT GOOD

Crowded House Anticipated at First Christian Church Tonight to Hear Famous Organist.

The advance sale of tickets for the concert to be given tonight at the First Christian church by Gatty Sellars, world famous English organist has been remarkably good, indicating a big attendance at the concert.

The world's press is unanimous in declaring Sellars to be pre-eminent in descriptive music. He usually plays from memory, often extemporizing on themes suggested by the audience. His appearance in concert in this city is an unusual treat for lovers of music.

Mr. Sellars has recently arrived in the States from a tour of South America. He has played in many of the largest cities both there and in the United States, many times to the largest audiences ever assembled.

A crowded church is anticipated at tonight's concert.

COLLEGE GRADUATING CLASS TO GIVE PLAY JUNE 7

A. M. Darnell Elected Class President. Twenty Out of the Forty Members Receive Degrees.

The graduating class of the State Teachers College met Friday and elected officers. The graduating class includes those receiving the sixty hour diploma and those finishing the one hundred twenty course. The class this year will probably have forty or more graduates, twenty of these receiving the degree. The officers elected were:

A. M. Darnell, president.
Myrtle Messlek, vice-president.
Maude Ummel, secretary.
Eula Pearce, treasurer.

The committee to select the play for the graduating class this year met Tuesday, April 12 and selected a play by Hubert Henry Davies, "The Single Man;" other notable plays by this author re "Cousin Kate" and "The Mollusc." The later has had a successful run in New York this year.

The cast will be selected this week as will also those who will give the class day program. Class day is Monday, June 7. The play will be given that night.

BRYAN SURE OF SEAT AT FRISCO CONVENTION

Johnson Held the Lead in Nebraska as Republican Presidential Choice—His Plurality 35,000.

Lincoln, April 22—With over half of the precincts of Nebraska reporting in Tuesday's state primaries, Senator Johnson held the lead as republican presidential choice with Wood as second and Pershing third. Johnson's plurality is estimated to be between twenty-five and thirty thousand. Ten hundred and fifty-four out of eighteen hundred and forty nine gave Johnson forty-one thousand seven hundred and fifty-three. Wood is thirty thousand three hundred and fifty-four, Pershing nineteen thousand eight hundred and sixty. Some number of precincts gave Hitchcock, who has practically no opposition as Democratic choice, twenty-two thousand five hundred and five. Bryan who ran as delegate at large to convention, seemed to be anchored firmly in third place with substantial majority.

S-S-H' FROST TONIGHT--DON'T TELL-JUST COVER 'EM UP

Advance Warning Sent Out by Weather Bureau—Spring Dressers Shiver in "Norther Temperature.

All early gardeners who have been crowing over spuds through the ground, lettuce and radishes up, had better wipe the grin off their face and get busy for a special weather report says FROST TONIGHT. Many working people arrived down town this morning dressed in light spring suits, patent leathers and silk hose and at noon looked as if they were doing the "shimmy" down the street.

J. R. Brink, official weather forecaster received an advance warning this morning of expected frost otnight. Strong, cold northwest winds have brought the temperature down to an uncomfortable degree of coldness since early morning in decided contrast to the warm spring like weather of yesterday.

HOPKINS MAY HAVE NEW BURLINGTON STATION SOON

Division Superintendent, W. T. Saddler, of Creston, visited Hopkins last week and in discussing the town and the company's interests, took occasion to say that Hopkins is now third on the list for a new depot.

The Journal has been pushing the town's claim for a new depot for more than a dozen years, getting marked copies of the paper before the officials who take the initiative in such matters and it begins to look more favorable.

Superintendent Saddler announced that the company will paint and give the railroad property here, including stock yards, a general clean up this spring, putting cinders on the right of way east and north of the depot.—Hopkins Journal.

Mrs. E. W. Bishop Improving.

Mrs. E. W. Bishop of Ravenwood is at the Noyes hospital in St. Joseph where she underwent a critical peration Monday. Her condition is very good and she is slowly recovering. Dr. Bishop and son, E. F. Bishop of Ravenwood and his daughter, Mrs. Cory Pettijohn of Grant City, have been with Mrs. Bishop since she went to the hospital.

ARMSTRONG FOUNDRY

FORM S.S. LEAGUE TO PLAY REAL BALL

MINISTERIAL ALLIANCE BACK OF COUNTY LEAGUE PROJECT.

KEEN INTEREST SHOWN

Meeting Will be Called Soon to Formally Organize and Make Out Game Schedule.

A group of base ball fans, in the Sunday schools of the city, backed by the Ministerial Alliance, are planning the organization of a county Sunday school base ball league.

Rev. R. E. Snodgrass, pastor of the First Christian church has been corresponding with the different towns of the county, whose Sunday school workers have been in favor of the movement and it is expected that a big league will be organized. All the schools of the county have been invited to join the league. Where a Sunday school has not enough men in it to form a team, they will join with another school of the town to make up the team. Some of the smaller towns may furnish one team.

A little later a meeting of at least one representative from each team will be called for the purpose of formally organizing the league and making out the schedule of games for the season, and to adopt the rules and regulations by which it is to be governed. One of the rules of the league will be that all team members will be Sunday school men.

All schools who wish to become affiliated with the league can get into communication with Mr. Snodgrass. Enthusiasm is very high among the men of the various Sunday schools of Maryville and they expect to form a league minus any soft spots, that can play good baseball.

MISS GOLDIA CULVER DIES AT HOME NEAR CLEARMONT

Burial Rites Will be Held at Workman Chapel Tomorrow Morning.

PRETTY WIDOW DIDN'T KEEP DATE, HE BURNS HER HOUSE

Chicago, April 19—Usually when a man's lady love fails to keep an engagement with him the proper procedure by way of reprisal is to call her up the next day and have it out over the telephone.

But this method was much too tame for Herman Eckhardt. When Mrs. Rose Weil, a pretty widow, refused to keep a "date" with him he poured gasoline on her house and set it on fire. He then tried to commit suicide by cutting his throat.

"I forgive Rose now," said Herman later, in the hospital.

"But I don't forgive Herman," observed Mrs. Weil. "I fear that he is not capable of adapting himself to modern civilization."

Mrs. George Dougherty and dughter Louise, and son, Donald, of Bedford, Ia., came to Maryville this morning and are guests at the home of Mrs. Hattie Hogue and daughter, Miss Myrtle Hogue.

GOODEN CASE HELD OVER TILL JUNE 28

CASE CALLED THIS MORNING BEFORE JUDGE L. B. WOODS.

CHARGES GRAND LARCENY

Case Against Harold E. Gooden of Parnell Held Over Since April 13 Granted Second Continuance.

A continuance was granted in circuit court today in the cases of Harold E. Gooden of Parnell on charges of alteration of automobile numbers and receiving stolen property and the case set over until June 28 for trial.

The case was brought up for trial on April 13, and on motion for a continuance filed by Cook and Cummins, attorneys for the defense, the case was held over until today when it was to have been tried before Judge L. B. Woods of Princeton, who was chosen as special judge to try the case after Judge Dawson disqualified himself from sitting in the case.

At the opening of the case this morning, the attorneys for the defense filed motion for continuance on account of not having witnesses in the case ready. Prosecuting Attorney McCaffrey was given until 1:30 o'clock this afternoon to file a counter affidavit, at which time the case was again called and the continuance granted.

The specific charge in the trial is the alleged theft of an automobile belonging to J. L. Poerce of Worth county on May 22 last and a second charge of an alleged theft last November of a car belonging to J. F. Beal of Benton, Iowa.

Judd Henry Injured.

Judd Henry had the misfortune to have his right leg seriously hurt while hauling logs to the saw mill last Friday. It appears that a pin came out or broke and in some manner the doubletree flew back, striking him on the shin, which split the bone and caused a hemorrage of the tissues. It is a very painful injury and Mr. Henry has suffered greatly. It is hoped it will not be long until he is able to be about again.—Ravenwood Gazette.

RESOLUTIONS OF DENVER COUNCIL DRAFTED BY GIRL

Denver, April 22.—Though not a lawyer, Miss Frank J. Emperor, clerk of the Denver City Council, drafts and writes most of the ordinances and resolutions adopted by that body.

"I established a bad precedent when I started drafting ordinances and putting them into legal form," Miss Emporer says. "The task is part of the duty of the City Attorney and his assistants, but now when members of the council encounter any delays with these officials they turn the work over to me."

WESTERN GROCER COMPANY

PRESIDENT TO HAVE BEAUTIFUL GARDENS

WHITE HOUSE GROUNDS BEING PREPARED BY GARDENERS

NORTH FRONT IS FINEST

Colonial Garden Designed by Mrs. Wilson Who Has Personally Directed Work.

Washington, Apr. 22—After months of careful planning by Mrs. Woodrow Wilson and weeks of painstaking work by the head gardener and a large corps of skilled assistants, the wonderful flower beds in the grounds of the White House are about ready to bloom in all their fragrant loveliness.

Even greater care than usual has been exercised this year in making the grounds attractive because of the convalescence of the President and his evident intention to spend the larger part of the summer at the Executive Mansion. Absolute quiet and plenty of sunlight and good fresh air are the prepondering parts of the prescription ordered by Rear Admiral Cary T. Grayson, the President's personal physician, and it is expected that Mr. Wilson will spend the best part of his walking hours that can be spared from his desk in the south grounds of the mansion.

The south front of the White House was the original front when it was first occupied by John Adams in 1799. The grounds then commanded a view of the Potomac River and were the scene of many social gatherings when Washington was reached by boat and stage coach. The Washington Monument now fills in the vista, an iron fence and high hedge shut off the beauty of this part of the reservation from view.

What was known as the southeast colonial garden has been set out with hardy perennial plants in addition to alyssem, phlox, dicitalis, brises, hollyhocks, paeonis, delphinium, chrysanthemums, dianthus, pansies, tulips and hyacinths. Mrs. Wilson has actually designed this garden and has virtually directed the setting out of the plants personally.

Just to the west is the rose garden which will be populated with ever-blooming specimens, tea and sweet-scented roses, radiants, sunbursts and Killarneys, interspersed with a profuse sprinkling of harmonizing flowers. The fence dividing the south garden from the grounds proper will be adorned with climbing roses of different hues. Around the fountain in the south grounds will be German and Japanese iris, the former blooming early and scattered around the grounds, and relieving the green of the beautiful shrubbery will be colorful flowers. Here are also many fine magnolia trees which always bloom about Easter time.

The north front of the White House usually receives the most attention from visitors to Washington. This front faces Pennsylvania avenue, and although enclosed by the same high iron fence there is no concealing hedge and the view of the grounds is unobstructed from the street. There will be three large flower beds in these grounds, a panel plot just in front of the fountain which occupies the center and two oval beds flanking it. The main flower around the fountain will be white hyacinths supported by Japanese iris, tulips and paeonis with a border of phlox. Other beds are made at the bases of the magnificent trees which are a feature of the President's front yard. These beds will be filled with narcissus, jonquils, forsythia, spiraea, dentzia, cydonia, weigela, pansies, lilacs, scilla, althea and the magnolia trees. Around the large magnolia tree just in front of the Executive Offices have been placed tulips and pansies.

Changes are made in these beds from time to time during the summer new flowers in season replacing those that have lost their bloom.

Tire Cost Is Coming Down

That is, the cost per mile.

Miller Tire mileage has in late years almost doubled, through perfection in tire making.

In the factory tests—rear-wheel tests under hard conditions—Miller Cords last year averaged 15,000 miles.

The new Miller tread has added 25% to the tread wear. Since its adoption, not a single Miller Tire has come back with the tread gone.

Both maker and inspector must sign every Miller Tire. Both are penalized if a tire comes back.

Every tire user owes himself a test of the Miller Tire. Its exceptional mileage is talked everywhere today.

Under this plan, defects have become a rarity.

It is giving hundreds of thousands of users new criterions of tire service.

It is winning contests where a score of makes are given million-mile comparisons.

Give it a chance to show.

PLAN BUILDING AT COLUMBIA FOR MASONIC STUDENTS

Masons Connected With University of Missouri Organize to Raise Funds For Student Hall.

Columbia, Mo., April 22—A mass meeting of Masons connected with the University of Missouri was held recently, and an organization was formed to raise funds for the erection of a Student Masonic Building at the state university, according to the report of the secretary, which continues:

"The proposed building is entirely separate from the new home which the Acacia (social) fraternity is planning to erect, and should not be confused with Acacia's new home, nor considered in opposition to it. The proposed building will be for the use of all Masons attending the University, and as far as possible for the sons of Masons.

"The officers elected at the meeting are Floyd L. Sperry, president; Louis D. Potter, vice-president; Erwin L. Ocker, secretary; S. C. Hunt, treasurer; Warren H. Moore, financial secretary. Mr. Hunt is not a student, but is the vice-president of the Boone County Trust Company of Columbia.

"In order that the interests of the Masons of the state may be safeguarded, a board of trustees, composed of three resident business men of Columbia, will be elected, and no money whatsoever will be spent without the approval of this board. The executive committee will be composed of the officers, the chairmen of permanent committees, and one faculty representative.

"Plans are now being made for the launching of a statewide campaign to raise the necessary funds for the erection of this student building."

THE GIANT SHIPYARDS AT HOG ISLAND, PHILADELPHIA, ARE CONVINCING EVIDENCE OF "DIAMOND CONSTRUCTION FOR STRENGTH."

An Automobile Starting Battery Guaranteed for Two Years!

A GUARANTEE is the measure of a manufacturer's faith in his battery—based on past performance. If he guarantees his battery for only ninety days or six months or a year, he is probably sure that it will last that long. But beyond the period of the guarantee he is asking you to take a risk which he is not willing to take himself. It is unbusinesslike for you to take such a risk when you can buy a Philadelphia Diamond Grid Battery that is guaranteed for TWO YEARS.

The Diamond Grid is the framework on which each of the plates is formed. Its Diamond Construction is similar to the Diamond Construction used on the ways and cranes at Hog Island and in most other strong structures. In your battery the Diamond Grid means strong plates and is your insurance against plate trouble.

The Philco Retainer is a sheet of hard rubber closely perforated with long narrow slots. A Retainer is placed flat against the active material on each side of each positive plate. In any battery the positive active material tends to slough off as the battery grows older. The slots in the Philco Retainer are so narrow that the material cannot readily pass through them and the result is greatly prolonged battery life.

Substitutes Often Worthless

It is a well-known fact that Lydia E. Pinkham's Vegetable Compound is the most successful remedy for woman's ills obtainable. Actually thousands of women have proved this to be true. Notwithstanding, some women make the mistake of trying something else, said to be just as good, simply because it is new.

Is it not foolish to risk the possible bad results of such experiments—and is it not better to depend upon a medicine that you know is reliable—a medicine that has had no equal for more than forty years?

Read what these Women Think About It

North East, Md.—"I was in ill health four or five years and doctored with one doctor after another but none helped me. I was irregular and had such terrible pain in my back, lower part of my body and down each side that I had to go to bed three or four days every month. I was very nervous, tired, could not sleep and could not eat without getting sick. A friend asked me to take Lydia E. Pinkham's Vegetable Compound and I am sorry I did not take it sooner for it has helped me wonderfully. I don't have to go to bed with the pain, can eat without being sick and have more strength. I recommend your medicine and you are at liberty to publish my testimonial."—ELIZABETH WEAVER, R. F. D. 2, North East, Md.

Utica, N. Y.—"I was all run down and had no energy or ambition and no strength to do my work. I went to the doctor's office every other day and could hardly crawl to get there and back. My husband wanted me to try Lydia E. Pinkham's Vegetable Compound and he got me a bottle and in two weeks this medicine did me more good than the doctor's medicine had done in ten. I kept on until I had taken ten bottles and felt like a new woman. Now I do all my own work besides I 'I kinds of dressmaking and sometimes paper hanging. I will recommend Lydia E. Pinkham's Vegetable Compound as long as I live and you may publish my testimonial."—Mrs. R. C. TANNER, 619 Plant St., Utica, N. Y.

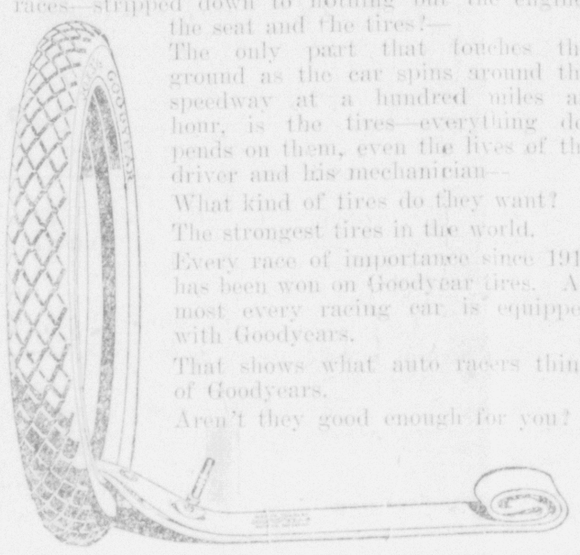
Who Wants Good Tires

Did you ever see the cars that run the big auto races—stripped down to nothing but the engine, the seat and the tires?—



The only part that touches the ground as the car spins around the speedway at a hundred miles an hour, is the tires—everything depends on them, even the lives of the driver and his mechanician—

What kind of tires do they want?

The strongest tires in the world.

Every race of importance since 1917 has been won on Goodyear tires. Almost every racing car is equipped with Goodyears.

That shows what auto racers think of Goodyears.

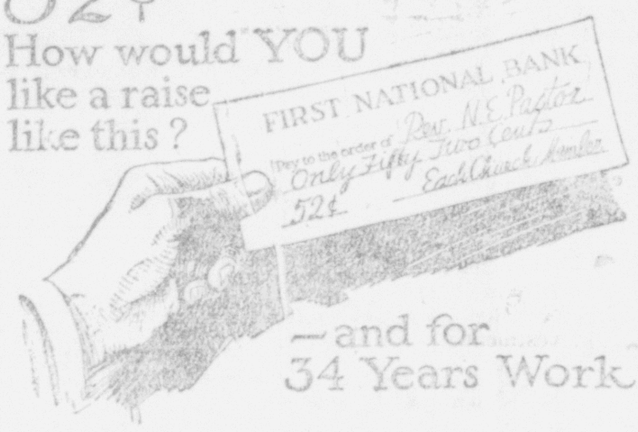
Aren't they good enough for you?

GEO. McMURRY

Buicks and Goodyears. 4th and Market.

52¢

How would YOU like a raise like this?



—and for 34 Years Work

THAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far as yours.

But he is paid on the average just 52 cents more *per church member* than he was paid 34 years ago.

The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first of all.

But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers—and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

8 out of every 10 ministers receive less than $20 a week—about half the pay of a mechanic.

We Pay Him Half the Wages of a Mechanic

And of these pitifully inadequate salaries, how much do *you* contribute? Nothing if you are outside the church; an average of less than 3c a day if you are a church member.

All of us share in the benefits of Christian ministers to the community. They marry us; bury us; baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

We Are All Profiteers at Their Expense

Part of the Interchurch World program is this—a living wage for every minister of Jesus Christ; an efficient plant, and a chance to do a big man's job.

If you want better preachers, help to pay the preachers better. It's the best investment for your community—and for your children—that you can ever make.

Wood-Tub Electric Washer

When you decide to do your washing the modern way—by electricity—all depends on the washer you choose.

Don't be mislead by unproved claims. Decide on a washer that has proved its merits.

Such a washer is the Maytag Wood-Tub Electric. This is one washer that does not merely state what it can or should do. The Maytag is famous for what it has done after years and years of service.

The makers of Maytag were pioneer makers of washing machines. This Wood-Tub Electric was one of the first electrically driven washers on the market.

For durability of construction and for dependable service this famous washer has never been equalled.

Don't make a mistake. Let us show you the Maytag Wood-Tub Electric before you buy. Come in for a demonstration now.

This is the lowest priced electric washer on the market.

MEMBERS OF CONGRESS PLAN BIG "JOY RIDE"

Prepare Trip to Hawaii and the Orient—Will Travel on Government Transport.

Washington, D. C., April 22.—Some hundred or more members of Congress are preparing for one grand, prolonged "joy ride" to the Orient. It will be the most extended "junket" of the many made by members of the present Congress.

This trip will be termed "unofficial" because the Government will not pay quite all the bills. The trip is to be made aboard a Government transport, and each member of the party will be required to pay $1.25 per day for "subsistence." Of course, in these H. C. L. days, that will be but a small part of the cost, so the taxpayers will pay the rest.

The trip will be made on the transport Mount Vernon. Starting from San Francisco early in July, the Congressional excursionists, many of them taking their families and secretaries, will visit Hawaii, the Philippines, China and Japan, and will be absent about sixty days. Thus does American fondness for travel assert itself. This trip will be the most delightful yet made, and will be at the most opportune time, when the season in Washington will be hot, but when it will be most delightful on the decks of a Government transport riding the waves of the Pacific.

Criticism of expenses such as this being saddled on the Government is being made, but apparently the majority leaders in Congress are making no effort to prevent the plan being carried out. It is being pointed out by some of the Republicans that it is rather difficult to insist that the Republicans in Congress are economizing when at the same time they are preparing to take a fine vacation at the expense of the Government on the pretense that they must study the "fast looming problems of the Pacific."

It is also proposed that there shall be other investigations. The Republicans propose to have committees visit all the Indian reservations for the purpose of "investigating," and that other members shall go to Alaska for the same purpose. It is urged that others shall go to France and to the Philippines and to Hawaii for the purpose of "investigating." One party has been to the Virgin Islands and another to the Panama Canal.

This explains in part why so little has been done in Washington and why Congress has shown a record of no constructive legislation.

WORLD WIDE SHORTAGE OF WHEAT PREDICTED FOR 1920

United States and Canada Must Feed Europe—Insufficient Rail Equipment to Move Russian Crop.

Washington, April 19.—Indication of a world-wide shortage of wheat this year and a world-wide increase in demand was reported yesterday by the American trade commissioner at London, who said bread was selling in England at what was generally figured the highest price working men would tolerate without grave disorders. With Russia still in a chaotic state, there is little to be expected from that country in the way of wheat exports and Europe naturally turns to the United States, Canada, Australia, India and Argentina.

Some European countries will be compelled to import much larger quantities of wheat than in pre-war times, provided they are able to arrange satisfactory credits, the report said. Conflicting reports in London from Russia place wheat available for export at 35,000,000 to 140,000,000 bushels but railroad equipment is not sufficient to move many large quantities. England and other European countries will have to depend on the United States, Canada and other wheat-producing nations.

The British government has announced the maximum price for the 1920 crop to be the average price of imported wheat of similar quality, provided the price so paid the home grower shall not exceed $2.80 a bushel. United States imports, the commissioner reported, were ranging from $3.04 to $4.11 or an average of $3.46 a bushel.

Recruit Troop of Indians.

Cheyenne, Wyo., March 22—Wyoming is to have a troop of cavalry composed entirely of full-blooded Indians.

Adjutant-General Timothy McCoy has just returned from the Wind River reservation, where Shoshone and Arapahoe Indian chiefs consented to start immediately a recruiting campaign for a troop of National Guard cavalry.

McCoy's acquaintance with the tribal tongues of the Shoshone and Arapahoes was an important factor in persuading the Indian leaders to undertake the recruiting campaign.

WHITEWASH MAKES THE HEN HOUSE SANITARY.

Early in the spring, when everything else around the farm is being cleaned and put in shape for the summer, a coat of whitewash will add greatly to the appearance and sanitation of the interior of the poultry house. It is the cheapest of all paints and may be used on the exterior of the building, too, if so desired.

Whitewash is made by shaking about 10 pounds of quicklime in a pail with 2 gallons of water, covering the pail with cloth or burlap and allowing it to slake for an hour. Water is then added to bring the whitewash to a consistency which may be applied readily.

A weatherproof whitewash for exterior surfaces recommended by the United States Department of Agriculture may be made as follows: (1) Slake 1 bushel of quicklime in 12 gallons of hot water; (2) dissolve 2 pounds of common salt and 1 pound of sulphate of zinc in 2 gallons of boiling water; pour (2) into (1), then add 2 gallons of skim milk and mix thoroughly. Whitewash is spread lightly over the surface with a broad brush.

The Man They Could Not Beat!

WILLIAM DUNCAN

in

"THE SILENT AVENGER"

They falsely branded him a thief. Honor and love kept him silent. They sent him to prison. Even his sweetheart misunderstood. The whole world seemed against him. But he still had his lion heart. When they thought him dead, he escaped the prison walls. Then commenced his fight back—a dare-devil, thrilling battle to regain name, honor and love.
